March 15, 2005

Dr. Jeff Koenings, Director
Washington State Fish and Wildlife
600 Capitol Way
Olympia, WA 98501-1091

Dear Dr. Koenings:

We have had another successful year in the nonpoint water pollution program. Much of the progress made on the actions in the state's nonpoint plan was the direct result of the implementation efforts made by your agency. I have enclosed a copy of this year's progress report for your information.

Carl Samuelson, your agency's representative to the State Agency Nonpoint Workgroup was a key contributor to this success. I appreciate all the time and dedication Carl put into this group's mission over the course of the past year. The group's accomplishments, not the least of which were the progress report and the thoughtful distribution of \$400,000 for nonpoint control projects, were considerable. Thank you for your efforts and commitment.

I look forward to ongoing improvement in our state's water quality, and am hopeful that we can continue the success of this workgroup. Your support of this program is greatly appreciated.

Sincerely,

Jay Manning
Director

Enclosure
